

Javier Tabuenca

Full-Stack Developer | Web & Apps | AI-Powered Development | Specializing in Cloud Computing

Zaragoza, Spain · tabucode@gmail.com · www.javiertabuenca.com · linkedin.com/in/javier-tabuenca

PROFILE

Full-stack developer based in Zaragoza, Spain. I build web and cross-platform apps with .NET, React and Next.js, bring AI into real products with the Claude API, and ship to my own infrastructure and to Azure.

My background combines development with critical systems: I've provided L1/L2 IT support for clients like Santander Bank and Adidas, leading the resolution of P1/P2 incidents under strict SLAs, and as a Junior Software Developer I helped build DPTelemetry, a telemetry mobile app for motorsport fans.

I'm now specializing in Cloud Computing with Azure. I'm looking for a team where I can grow fast, contribute from day one and, over time, lead projects.

EXPERIENCE

IT Support L1/L2 · Santander Bank Client Apr 2026 — Jun 2026 · 3 months
IRIUM · Project-based contract · Zaragoza, Spain (On-site)

Imaging and provisioning: installing and configuring client devices (management workstations, teller terminals, and mobile units) through the SDS platform, ensuring correct OS deployment.

IT Support L1/L2 · Santander Bank Client Dec 2025 — Jan 2026 · 2 months
IRIUM · Project-based contract · Zaragoza, Spain (On-site)

Led the resolution of critical incidents (P1/P2) on core systems, servers, and network infrastructure, ensuring business continuity and strict compliance with Service Level Agreements (SLAs).

IT Support · Adidas Client Jul 2025 — Sep 2025 · 3 months
COS Global Services · Project-based contract · Zaragoza, Spain (On-site)

Ticket management, technical support, and incident resolution.

Junior Software Developer Mar 2025 — Jun 2025 · 4 months
CodeArts Solutions · Internship · Zaragoza, Spain (Remote)

Helped develop DPTelemetry, a mobile app for motorsport fans available on Android and iOS, that helps users easily view and understand racing telemetry.

Web Development Technician Jul 2023 — Aug 2023 · 2 months
DELRIOVISUAL · Internship · Zaragoza, Spain (On-site)

Built dynamic, responsive websites with WordPress and Elementor, HTML5 markup and MySQL databases managed through phpMyAdmin, working as part of a team with the 5S methodology and a focus on performance.

PROJECTS

DPTelemetry (Live)
Mobile app for motorsport fans, available on Android and iOS, that helps users easily visualize and understand in-race telemetry data. Built as a Junior Software Developer at CodeArts Solutions.
Live on the App Store and Google Play. My first experience shipping a real product to production.
Android · iOS · Mobile development · Databases

TECH STACK

Frontend: JavaScript, TypeScript, React, Next.js, Astro, HTML & CSS
Backend: .NET / C#, Node.js, Prisma, SQL Server, SQLite, APIs REST
Cloud: Azure, Cloudflare Tunnel, Cloudflare DNS, Cloudflare Workers, Nextcloud, Self-hosting
AI: API de Claude, Claude Code, MCP, n8n, IA generativa

DevOps: Docker, Linux, Git, CI/CD, PM2, Sentry

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900) — Fundación Ibercaja	Issued Feb 2026
AI-Assisted Development: Agent Programming — BIG School	Issued Jun 2026
Basic Certification AI Specialist — Racks Academy	Issued Mar 2026
Master AI with Gemini — Santander Open Academy	Issued Jan 2026
AI-Assisted Development — BIG School	Issued Oct 2025
IFCD94 Big Data Tools and Data Governance — MainJobs	Issued Sep 2025
Alumni Next Generation — Grupo San Valero	Issued Apr 2025
Mobile App Development Course — Google	Issued Jun 2024
Google AI Essentials — Google	Issued Jun 2024
Foundations of Cybersecurity — Google	Issued Jun 2024

Next goal: AZ-104 · Azure Administrator

EDUCATION

Vocational Master's, Cloud Resources and Services — Campus Digital FP	Oct 2026 — Present
Higher Vocational Training, Cross-Platform Application Development — Cesur	Sep 2023 — Jun 2025
Intermediate Vocational Training, Microcomputer Systems and Networks — Centro San Valero	Sep 2020 — Jun 2022
Intermediate Vocational Training, Automotive Electromechanics — Centro San Valero	Sep 2018 — Jun 2020
Level 3 Professional Certificate, .NET — Centro de FP Océano Atlántico	Oct 2025 — Dec 2025
Digital Change Agent, Information Technology — SEAS, Estudios Superiores Abiertos	Jun 2024 — Aug 2024
Level 2 Professional Certificate, Web Page Design and Publishing — System Formación	Jan 2023 — Jun 2023
Generative AI — Factoría F5	Sep 2025
